I was summoned! [Active heroes side]

I (Hero) Hero/Parallel universe: #1-2 (Long)
I had completed my duties as a hero and was returning home, but I accidentally got summoned!
Haha, this is quite troubling!

Watches over heroes
Village Chief (Ta Bata)

Watches over heroes
Company Employee

lol
The hell
are you
doing?

lol
What are
you doing?

B.Hero: Hero (Parallel universe #4 - Teen)

I mean exactly that!

I accidentally got summoned!

And it was right after we beat the evil space
empire Eval, and restored peace!

This is really troubling!

15. Hero/Parallel universe #4-a Team

I see, it seems my name was reset when I was summoned!

16. Hero/Star Alloy Robot 1/Parallel universe #4-a Team

I've changed it, is it correct now?!

20. Hero, Star Alloy Robot 1

Haha!

Indeed, we were separated!

It seems only I arrived at this world!

Were you
separated?

What
happened to
2 and the
others?

5

2

Wait,

how many
of you
were
there?

Wasn't it 5?

Detective?

Is something
the matter,

Question.

30HoursStar Alloy Robot 1

I see!

You were one of the people in the world I protected, Detective!

Protecting your smiles is my greatest joy!

30-Hard Star Alloy Robot 1

Hehe!

It's only natural to be surprised!

But the 5 of us were entrusted with the mission of saving
you from the evil empire Evil!

Now that we've completed it, you can rest in peace!

I can get to the bottom of anything.

I've figured out how to get to the bottom of

any unusual phenomenon

Ever since I started browsing the BBS,

Sorry for derailling.

Well yeah, he just learned that his world

Detective is resorting to autosuggestions.

I don't get how the people of Earth series worlds think.

was saved by a bunch of robots. lol

Well, let's get back on topic!

Star Alloy Robot 1, you were summoned, right?

45 Hero Star Alloy Robot 1

Exactly!

It seems that Toon's hero summoning ritual and our warp's return program got mixed up! And so, I got summoned to this world as a hero!

Was that as a hero?

47 Hero Star Alley Robot 1

Of course!

My mission is to fight for everyone's smiles!

It seems this world has an enemy called the demon lord!

2-4 Hero Star Alloy Robot 1

Because I'm a hero!
if someone calls for me, I'll be there!
I'll protect everyone's smiles!
There's just a small problem!

SB Hero Star Alloy Robot 1

Student, Company Employee, that's exactly it!
What should I do?

Simply
put,
he
can't
combine!

Star Alloy
Robot 1,
is combat
impossible
if

Question:

Robot

Combine

61 Hero Star Alloy Robot 1

I can do it if I need to!

But if we're talking about robots fighting, they've gotta
combine, right?!

62. Watches over heroes: Detective

A dog!

63. Watches over heroes: Village Chief

Detective, are you okay?

Everyone else from the Earth series worlds seems to react to Star Alloy Robot 1 just fine, so I didn't think too much about it, is he actually unusual?

64. Watches over heroes: Student

No, not at all!

In fact, we've got tons of them!

65. Watches over heroes: Company Employee

We just got shocked when they turn out to be real lol

66. Watches over heroes: Politician

lol

I really don't understand what you're talking about

67 HeroStar Alloy Robot 1

It's only natural to be surprised!
Don't blame Detective for it!

If it's
electricity,
isn't there a
risk of
running out
of juice in
another
world?

Out of
curiosity,
what is the
source of
your energy?

Uh
...

68 HeroStar Alloy Robot 1

What are you talking about?!

We're driven by smiles!
Isn't that natural?!

I know
that
feeling
lol

It's Star Alloy
Robot 1 after all!

Smiles

13 Hero Star Alloy Robot 1

Now then, how can I save this world by myself?!
Everyone! Lend me your wisdom!

It'll also depend on the demon lord's level, any ideas?

He mentioned something about being a dog model, but beating the demon lord alone

just as a reminder,

The Star Alloy Robots can't use their full power unless all 3 are together

18 Hero Star Alloy Robot 1

No, I can't send any messages!
It's really troubling!

Well, you're in different worlds after all

Question:

possess a means of contacting your comrades?

Star Alloy robot 1, do you not

03. Here Star Alloy Robot 1

Oh, I had also forgotten about that costing!
I didn't even consider anything other than the
normal methods of communication!

What about
HeCh?

But it's too bad!
I had always used the usual
communication method,
so I haven't registered for it!

Oh,
now that
you
mention
it.

Ah, right,
have you tried
that?

04. Watches over heroes, Star Alloy Robot 3

Good, so this is where you were.
We were looking for you, what are you
doing, 1?

A bird!

Oh.

It's 3. Uh,
you're... A
bird, right?

Feel free to
praise me!

Well,
I got the
HeCh for
you!

III. Watches over heroes. Star Alloy Robot 3
When we returned to planet Justice,
we were surprised to find that 1 was
missing. Everyone's worried,
usually, what are you doing?

I know how
you feel
lol

There,
there,
Detective.

Some-
where

In this
world

Planet

Justice

9). Hero Star Alloy Robot 1

Sorry about that, 3!

But I was called for!

As a hero!

The smiles in this world are clouded!

I can't let this be!

Not to
mention that
the
summoning
was an
accident

The problem
is still
unresolved
though,

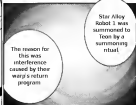

only 1 was
summoned
there.

Star Alloy
Robot 1 is
always fired
up lol

Proposal.

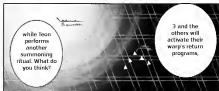

The reason for
this was
interference
caused by their
war's return
program

Star Alley
Robot 1 was
summoned to
Teen by a
summoning
ritual

Situation

while Teen
performs
another
summoning
ritual. What do
you think?

3 and the
others will
activate their
war's return
programs,

The plan
seems full of
holes

Isn't it a
rather big
gamble?

That's...
What do you
think of it?

99. Watches over heroes: Battle Maid

Proposal:

keep repeating the process until it succeeds

How about that?

100. Watches over heroes: Student

Uh, but won't that summon unrelated people?

101. Watches over heroes: Battle Maid

Statement:

that is insignificant considering that the Star Alloy Robots can only fight properly together.

102. Watches over heroes: Star Alloy Robot 3

Sooo, is that the conclusion?
Then, let's dooo it!

103. Hero: Star Alloy Robot 1

I see, let's get started then!

By combining, we'll defeat the demon lord!
3, tell the others!

104. Watches over heroes: Company Employee

Wait, hold on...

105. Watches over heroes: Village Chief

Really, just wait, calm down for a bit.

106. watches over heroes: Public:

Battle Maid's definition of insignificant is quite off, and doesn't the plan involve a lot of risk?

107. Watches over heroes: Student

Yeah,

I'd suggest asking someone like Sage for this.
Shall I go call him?

108. Watches over heroes: Star Alloy Robot 3

Oh, heeet~

1.09 HeroStar Alloy Robot 1
We've already begun!

1.13 HeroStar Alloy Robot 1
Strike while the iron is hot!

Oh!
It worked!
2, it's been a while!
Well, it hasn't been that long,
actually!

They're
multi-
plying

Hold on
just a
minute

Oh

What

I will pray
for all of
the Star
Alloy
Robots to
be
reunited

keep
repeating
this process
until it
succeeds

Proposal

Could
this
actually
go well?

To think it'd
work on the
first
attempt...

120. Watches over heroes, Company Employee.
Wait, 2 is a snake and becomes the arms, right?

121. Watches over heroes, Student.
Yep.
Also, 1 becomes the torso, and 3 becomes the head!

聖合金合体完了!!

123. Watches over heroes, Detective.
Snake.
Mm... About the legs.
What exactly are 4 and 5?

124. Watches over heroes, Student.
4 is a giraffe, and 5 is a penguin!

125. Watches over heroes, Detective.
Giraffe.
Penguin.
